A Step-by-Step Seller's Guide

From first thoughts to closing day

01

Understand Why You're Selling

Decide what you want from the sale, whether a certain profit or a quick move. Share your goals so pricing fits your needs.

02

Determine Selling Price

A fair price draws the most interest. We'll review comparable sales and the current market to find it.

03

Start Preparations

Declutter, depersonalize so buyers can picture themselves there, make small repairs and deep clean.

04

Develop a Marketing Strategy

We list your home and drive traffic through social media, agent referrals, traditional media and SEO.

05

Evaluate Offers

We confirm each buyer is prequalified or pre-approved. If an offer is low, counter or bridge the gap with closing costs, repairs or timing.

06

Accept an Offer

We review the contract for deposit, financing, inspections, contingencies, settlement date and fees, then prepare the final contract.

07

Get Ready to Close

We manage the to-do list with the buyer (inspection, survey, appraisal, repairs) and confirm with the closing company.

08

Close

Sign the final paperwork and transfer ownership. Wrap up details like utilities, services and appliance instructions.

Congratulations, your home is sold!

You're free to take the next step on your journey, knowing all your selling responsibilities are taken care of.
